

Feedback Booster!

Hello. First off, I would like to thank you for trusting me and buying this ebook. I have most likely stated in my advert that using this method of getting your feedback up, you DO NOT need to open a shop. As a matter of fact, you can spend as little as £1.00 measly pound or £1.00 USD or whatever currency you use, to boost your feedback up 100 notches! It's just so simple! All it requires is a Paypal account and an Ebay account. You don't even need a sellers account! Are you still interested? Read on...

So you've got your Ebay account and your Paypal account opened. You might want to, for convenience, take £/\$1.00 out of your credit card and on to your Paypal account. So what now? Well. You will simple search Ebay for anything. Seriously anything. I usually type in '1' in the search box.
